As at 1st January 2024

GENERAL REGULATIONS

1. Eligibility.

- a. Working trial licences will be issued to registered or affiliated societies only.
- b. Dogs entered at Kennel Club licensed working trials must be registered at the Kennel Club in accordance with Kennel Club Regulations for Classification and Registration [B].
- c. Dogs under 18 calendar months of age on the closing date are ineligible for competition at Kennel Club licensed working trials, except that dogs of 6 calendar months of age on the closing date of the trial may be entered for Special Stakes, which do not include the long jump, clear jump and scale. Bloodhounds may be entered for Bloodhound Trials at 12 calendar months on the first day of the trial. However, societies may accept Not for Competition entries at their discretion. Dogs aged four calendar months and over are eligible to enter Not for Competition.
- d. If, in the opinion of the Board, a dog is of a savage disposition it shall be ineligible for entry at any working trial held under Kennel Club Regulations.
- e. Persons disqualified or suspended under Kennel Club Rules are not eligible to take part in any Kennel Club licensed event.
- f. No activity shall be conducted which permits, encourages or develops aggression in a dog other than in the strictly controlled conditions of Patrol Dog (PD) stakes.

2. Welfare of dogs.

An exhibitor (or competitor) whose dog is entered at a Kennel Club licensed event should take all reasonable steps to ensure the needs of their dog(s) are met, and should not knowingly put their dogs' health and welfare at risk by any action, default, omission or otherwise. A breach of this Regulation may be referred to the Board for disciplinary action under Kennel Club Rules and Regulations. The use of pinch collars, electronic shock collars, or prong collars, is not permitted at any working trials event licensed by the Kennel Club. This shall apply at the venue and within the precincts of the Trial.

3. Code of conduct.

Those taking part in Kennel Club licensed/approved events are expected to maintain and abide by the highest standards, in accordance with Kennel Club Rules and Regulations and appropriate Codes of Conduct as published from time to time.

4. Licensed working trials.—Licensed working trials held under Kennel Club Rules and Regulations are those held under licence granted by the Board of the Kennel Club, and are:

- a. Championship working trials—Open to all competitors, except where a qualification for entry has been approved by the Board of the Kennel Club.

- b. Open working trials—Open to all competitors.

On the day of the event a current public liability insurance document must be held or the event will be deemed to be unlicensed.

5. Permission to hold working trials.

- a. The Board shall have the power to grant, withhold or cancel permission to hold any licensed working trials.
- b. Any cancellation or abandonment of a trial without prior permission of the Board must be reported in writing to the Kennel Club without delay, and must be carried out in accordance with the relevant Kennel Club published event cancellation policy.

6. Societies are required to apply for permission to hold Special Events.—

Applications should be submitted to The Kennel Club by email at least six weeks before the start of any qualifying heats for the event.

Special Events are designated as any activity-related event which cannot be included on the schedule of a normally licensed show/trial/competition due to being invitational and therefore not open to all competitors, or which are not being held at a licensed show. Where competitors qualify for a final via heats held at that and other shows/trials/competitions, special event permission must be sought for the final whether it is held in conjunction with a licensed show/trial/competition or as a separate standalone event. This would not apply where all of the heats are held at the same show/trial/competition at which the final is held.

The regulations relating to the disqualification and forfeit of awards will apply to these events.

7. Jurisdiction and responsibilities.

The Officers and Committee members of the society holding the licence are deemed responsible for organising and conducting the trial safely and in accordance with the Rules and Regulations of the Kennel Club and agree to abide by and adopt any decision of the Board or any authority to whom the Board may delegate its powers subject to the conditions of Regulation I32. - g. No competitor shall impugn the decision of the judge or judges.
- h. A dog must not compete in the same stake more than once, including special stakes.

DESCRIPTION OF EXERCISES AND GUIDANCE FOR JUDGES

1. Method of handling.—Although implicit obedience is necessary, dogs and handlers must operate in as free and natural a manner as possible; persistent barking, whining, etc. in any exercise other than location of person or speak on command should be penalised. The handler must not have food or a toy on their person whilst the dog is being tested. As far as reasonably practical, competitors should not watch any dog working the nosework in the same stake, prior to competing.

2. Heel work.—The judge should test the ability of the dog to keep its shoulder reasonably close to the left knee of the handler who should walk smartly in a natural manner at normal, fast and slow paces through turns and among and around persons and obstacles. The halt, with the dog sitting to heel and a 'figure of eight' may be included at any stage. Extra commands shall be permitted in the Introductory and CD Stake.

Any act, signal or command or jerking of the lead which in the opinion of the Judge has given the dog unfair assistance shall be penalised.

Where required the lead must be attached to a close fitting smooth collar. Retractable leads or head collars are not to be used. In TD and PD Stakes, at some time during the test, while working at a normal pace, the dog shall be required to be left in the down position when directed by the judge. The handler shall continue forward alone, without hesitation, and proceed as directed by the judge until upon reaching the dog, both shall continue forward together in accordance with the instructions given.

3. Sit (Introductory stake 1 minute. CD stake 2 minutes in sight).—Dogs may be tested individually or in a group or groups. The judge or stewards will give the order 'last command' and handlers should then instantly give their final commands to the dogs. Any further commands or signals to the dogs will be penalised. Handlers will then be instructed to leave their dogs and proceed to positions indicated by the judge or steward until ordered to return to them. Dogs must remain in the sit position throughout the test until the judge or steward indicates that the test has finished. Minor movements may be penalised. The judge however may use discretion should interference by another dog cause the dog to move.

4. Down (Introductory and CD stake 5 minutes. Other stakes 10 minutes).—Handlers must be out of sight of the dogs who may be tested individually or in a group or groups. The judge or steward will give the command 'last command' and handlers should then instantly give their final commands to their dogs. Any further commands or signals to the dogs will be penalised. Handlers will then be instructed to leave their dogs and proceed to positions indicated by the judge or steward until ordered to return to them. Dogs must remain in the 'down' position throughout the test until the judge or steward indicates that the test has finished. Minor movements may be penalised. No dog will be awarded any marks that sits, stands or crawls more than its approximate body length in any direction. The judge however may use discretion should interference by another dog cause the dog to move.

5. Recall to handler.—The dog should be recalled from the 'down' or 'sit' position. The handler being a reasonable distance from the dog at the discretion of the judge. The dog should return at a smart pace and sit in front of the handler, afterwards going smartly to heel on command or signal. Handler to await command of the judge or steward. Extra commands shall be permitted in the introductory and CD stakes.

6. Retrieve a dumb-bell.—The dog should not move forward to retrieve nor deliver to hand on return until ordered by the handler on the judge or stewards' instructions. The retrieve should be executed at a smart pace without mouthing or playing with the dumb-bell and the dog should sit in front of the handler. After delivery the handler will send the dog to heel on the instruction of the Judge or Steward. Extra commands shall be permitted in the Introductory and CD stakes.

7. Send away and directional control.—The minimum distance that the judge shall set for the send away shall be 20m for the Introductory stake and the CD stake and 50m for all other stakes. In the Introductory stake the maximum distance that the judge shall set for the send away shall be 50m. The TD and PD stakes shall also include change of direction or directions of a minimum of 50m. When the dog has reached the designated point or the judge is satisfied that after a reasonable time the handler cannot improve the position of the dog by any further commands the dog should be stopped in either the stand, sit or down position at the discretion of the handler. At this point in the TD or PD stakes the judge or steward will instruct the handler to redirect the dog. In all stakes, whilst the judge should take into account the number of commands used during the exercise, importance should be placed upon the handler's ability to direct the dog to the place indicated.

8. Steadiness to gunshot.—No gun test will be held in buildings, or other confined areas, nor will shotguns be used at working trials. Guns used must be constructed to fire blanks only. Prior warning must be given to the handler, who will be instructed to work the dog 'heel free', or leave the dog within a controlling distance and where the handler has sight of their dog. The dog must not be provoked by excessive display of the gun, nor should the gun be pointed at the dog or handler except in Group IV Patrol. Any sign of fear, aggression or barking must be penalised. This test must not be incorporated into any other test.

9. 'Speak on command'.—In TD and PD, the number of barks is at the judge's discretion and after the cease 'speaking' the handler may be instructed to make the dog speak again. 'Speaking' should be sustained by the dog with the minimum of commands and/or signals. Continuous and/or excessive incitements to 'speak' must be heavily penalised. This test must not be incorporated with any other test.

The judge will control the position of the handler in relation to the dog. In UD Stake and WD Stake, this position should be near and in sight of the dog. The dog may be in the stand, sit or down.

In TD and PD, the handler may be required to work the dog walking at heel. If the dog is not required to walk at heel, the handler may place the dog in the stand, sit or down.

In UD the number of barks should be 5, in WD the number of barks should be 10.

10. Agility.—the descriptions below should be followed for agility:

- a. No part of the clear, long jump or scale equipment to be traversed by the dog shall be less than 914mm wide nor be in any way injurious to the dog.

The test must commence with the clear jump and then be followed in any sequence of the long jump and scale. Handlers should not be prevented from pacing or stepping out the position from which to send their dogs over the clear, long or scale jump provided this does not cause unnecessary delay.

- b. The Clear Jump must be so constructed that it will be obvious if the dog has exerted more than slight pressure upon it. All poles or bars must be easily displaced by the dog. There must be a further removable pole or bar approximately halfway below the top pole. No further pole or bar is required if the jump is lower than approx. 914mm. Appreciable pressure exerted by the dog on the clear jump shall be considered to be a failure.
- c. The construction of the Long Jump shall be as follows: The front element to be a minimum of 914mm wide graduating over 5 elements. (The largest of which is removed for dogs not exceeding 380mm at shoulder: the largest two of which are removed for dogs not exceeding 254mm at shoulder) to a back element of a minimum width of 1m. The front edge of the front element to be 102mm high rising to 178mm at the back edge. Each element thereafter graduating in height by 25mm - the back of the last element being 280mm high. The minimum width (front to back) of each element to be at least 152mm and clearly visible to the dog.
- d. The handler may either approach the clear and long jumps with the dog or send it forward or stand by the jumps and call the dog up to jump. At no time should the handler proceed beyond any part of the jumps before they have been traversed by the dog. Casual fouling of the Clear or Long Jump may be penalised. Once the dog has cleared the obstacle he should remain on the other side under control until joined by the handler.
- e. The scale should be a vertical wall of wooden planks which must be grooved, or chamfered along their bottom edge, to assist the dog. Slats are not permitted. The top surface of the scale may be slightly padded. The handler and dog must approach the face of the scale at a walking pace with the dog at heel. At the handlers discretion and in his own time whilst the dog and handler are in a stationary position and the dog's front feet are within the clearly defined 2.74m marker(s) the dog should be ordered to scale. On reaching the other side the dog should be ordered to stay in the stand, sit or down position, the handler having previously nominated the position to the judge. The judge should ensure that the dog will stay steady and may indicate to the handler where he should stand in relation to his dog and the scale before ordering the dog to be recalled over the scale. A dog which fails to go over the scale at the second attempt shall be excluded from the stay and recall over the scale. Failure in the recall over the scale does not disqualify from marks previously gained.
- f. Failure or refusal at any of the 3 types of jump may be followed by a second attempt and any one such failure shall be penalised by half the marks allotted to that part of the exercise in which the dog is given a second attempt.

- g. Jumping heights and lengths:
- (1) *Introductory stake:*
 - (a) Clear Jump—
Dogs not exceeding 254mm at shoulder 380mm

11. Search.—The Introductory Stake Search shall contain 4 articles of which only 3 are to be recovered. The Companion Dog (CD) Stake Search shall contain 3 articles and all other stakes shall contain 4. In all stakes fresh articles must be placed for each dog which must recover a minimum of 2 to qualify. The judge must choose track and search articles suitable to the nature of the ground and stake being judged and which are unlikely to be in any way injurious to the dog. The time allotted shall be 4 minutes in the Introductory stake and the CD stake and 5 minutes in all other stakes. The articles must be well handled and placed, not dropped, or buried, by a steward who shall foil the ground by walking in varying directions over the area. An area of ground which has had a search laid over it must not have another search laid over it until the following day.

The Introductory Stake and the CD stake search area shall be approx. 14m square, all other stakes being approx. 23m square and shall be clearly defined by a marker peg at each corner. The handler may work his dog from any position outside the area, but must not enter it. In the Introductory Stake and the CD stake a maximum 5 marks should be allotted for each article and a maximum 5 marks for style and control. In all other stakes a maximum 7 marks should be allotted for each article and a maximum 7 marks for style and control.

12. Track.—The descriptions below should be followed for the track:

- a. The track should be plotted on the ground to be used for the nosework previous to the day of commencement of the trials. An area of ground which has had a track laid over it must not have another track laid over it until the following day. Wherever possible the ground used for a tracking stake shall be as similar as possible to the ground used at that trial in that stake. The judge must choose track and search articles suitable to the nature of the ground and stake being judged and which are unlikely to be in any way injurious to the dog.
- b. The track shall be a single line and may include turns. It shall be approximately 800m long and should be laid as far as possible by a stranger to the dog. In UD, it shall be a minimum of 550 metres long. The article(s) must be well handled and be placed, not dropped or buried on the track.
- c. There shall be a marker left by the track layer to indicate the start of the track which must be far enough from the search square to allow the square to be worked without interfering with the track. The track layer will indicate to the competitor the line he took to the pole. There shall be no back track. In the U.D. stake a second marker should be left not more than approx. 30m from the start to indicate the direction of the first leg.
- d. When the judging is in progress the track layer shall be present at the side of the judge to indicate the exact line of the track and the position of the articles.
- e. If a time limit is given for the completion of a track it must not be less than 20 minutes.
- f. Unless the judge considers the dog to have lost the track beyond recovery or has run out of time allotted for the completion of the track a handler may recast his dog at his discretion. The judge should not at any time indicate to the handler where the dog should be recast except in exceptional circumstances.
- g. Tracks for specific stakes shall be as follows:
 - (1) The UD stake track shall be not less than half an hour old and shall include 2 articles, one of which must be placed in the first half of the track. At least one article must be recovered to qualify.
 - (2) The WD stake track shall be not less than one and a half hours old and shall include 2 articles one of which must be recovered to qualify.
 - (3) The PD stake track shall be not less than 2 hours old and shall include 2 articles one of which must be recovered to qualify.
 - (4) The TD stake track shall be not less than 3 hours old and shall include 3 articles two of which must be recovered to qualify.

- h. In all stakes the last article shall indicate the end of the track. No 2 articles should be laid together.
- i. A spare track additional to requirements should be laid but the opportunity to run a new track should be given only in exceptional circumstances.
- j. The area used for tracking is out of bounds to all competitors for practice tracks and exercise from the time of the first track and any competitor found contravening this instruction is liable to be disqualified by the judge and or trials manager from participating in the trial in accordance with the provision of Regulation I11.c.
- k. The dog must be worked on a harness and tracking line. The line must be attached to the upper section of the harness so that when the dog is worked the line does not pass under the dog.

13. Quartering the ground.—The missing person, protected consistent with safety, must remain motionless in a seated or standing position out of sight of the handler but must be accessible on investigation to the dog when 'winded'. The protected steward must not be lying down. The judge should satisfy himself that the dog has found the person and has given warning spontaneously and emphatically without being directed by the handler. A dog that bites the hidden person must be heavily penalised.

14. Test of courage.—This is a test of courage rather than of control, and the method of testing is at the judge's discretion. Handlers must be prepared to have the dog tested when off the lead by a protected steward. The protected arm must be accessible. The dog must be judged on its courage and attitude.

15. Search and Escort.—The 'protected steward' will be searched by the handler with the dog off the lead at the sit, stand or down. The judge will assess whether the dog is well placed tactically and ready to defend if called to do so. The handler will be told to escort the 'protected steward' at least 30m in a given direction, he will give at least one turn on the direction of the judge. During the exercise the 'protected steward' will turn and attempt to overpower the handler. The dog may defend spontaneously or on command and must release the 'protected steward' at once when the handler calls him off.

16. Recall from protected stewards.—The dog will be off lead beside the handler. The position of the dog and the command given to send the dog must be the same as that for the Pursuit exercise. The 'protected steward' will be challenged and will reply in order to gain the dog's attention before running away as directed by the judge. The handler will be told when to send his dog. When the dog is approximately half way between the handler and the 'protected steward' the judge will signal to recall the dog. The 'protected steward' should continue running until the dog returns to the handler or bites the sleeve. The recall may be by whistle or voice.

17. Pursuit and detention of protected stewards.—The dog will be off lead beside the handler. The position of the dog and the command given to send the dog must be the same as that for the Recall exercise. The 'protected steward' will be challenged and will reply in order to gain the dog's attention before running away as directed by the judge. The handler will be told when to send his dog. A run-out point may be set by the judge. The dog must detain the 'protected steward' by holding him by the protected arm until commanded by the handler to release. If the dog fails to detain the 'protected steward', it shall lose any marks that it may have obtained for the Recall exercise, or it shall not be tested on the Recall.

18. Health and Safety, Bite Exercises.—In any exercise where the dog is required to bite a protected steward (protected consistent with safety), it must be on the right arm. Any indiscriminate biting will result in the dog being excluded from the remainder of the test. At no time in any exercise should the sleeve be presented to the dog in an obvious and exaggerated manner, but equally it must not be obscured in such a way as to make it inaccessible to the dog. A protected steward shall, for both their safety and that of the dog, take the energy impact of the bite, landing all of the dog's feet as soon as possible, and without any such movement that causes the dog to be swung or lifted up in a circular motion.

a. **Patrol Dog - Equipment and Protective Clothing**

The judge must either provide the equipment or check its suitability. Sleeves must have a tapered edge, and a jute cover, and must be suitable for all dogs entered. The cover must not be brand new, nor frayed. There must be a hand grip inside the sleeve. Close weave covers must not be used. There must not be external buckles, or a joint in the sleeve which leaves a gap. The sleeve must not be obscured by clothing or anything else. Puppy sleeves may not be used. 'Scratch pants' which protect the helper from dogs' nails may be worn. The sleeve must be accessible should the dog bite.

- b. For Quartering the ground, Search and Escort, Recall from protected stewards, and Pursuit and Detention of protected stewards, protected stewards must wear a sleeve as described in the Equipment and Protective Clothing regulation on the right arm.
- c. For the Test of courage, protected stewards must wear a sleeve on the right arm as described in the Equipment and Protective Clothing regulation, or a 'bite jacket' with a light-coloured jute area on the right arm. Items used in the Test of courage must be designed to be non-injurious to the dogs, with no sharp points or hard objects inside any sacks used.

(The use of the singular throughout this Annex may, where appropriate, also apply to the plural.)

SPECIFIC REGULATIONS FOR BLOODHOUND TRIALS

These Regulations to be read in conjunction with Kennel Club Working Trial Regulations [I].

1. Bloodhound Working Trial Certificates.

A Kennel Club Bloodhound Working Trial Certificate may be awarded to a Bloodhound winning a senior stake without assistance at a Championship Bloodhound Trial if it has clearly identified the runner to the satisfaction of the judge or judges. A hound will be considered to have made a satisfactory identification if it is seen to approach and clearly select the runner from a group of three people at the end of the line. Handlers who choose to work/hunt their hounds leashed must drop their leash within a minimum of 200yds/183m of the line up, so that a natural identification takes place that is free from any handler interference. Judges may award a Certificate of Merit in all stakes to any hound not being placed which has given a good performance.

2. Schedules.

- a. The society holding a Bloodhound Trial must issue a schedule which shall form the basis of a contract between the society and those entering hounds. No modifications may be made to the schedule before the date of the trial, except by permission of the Kennel Club and such modifications must be advertised.
- b. A copy of the schedule issued for each trial must be retained by the organisations for at least one year from the date of the trial and must be forwarded to the Kennel Club if requested, together with any other documents.
- c. The schedule must contain:
 - (1) The date and place of the Bloodhound Trial.
 - (2) The latest date for applying for entry at the trial.
 - (3) The amount of entry fees and any prize money.
 - (4) A statement that a draw will be made for the order of running.
 - (5) The conditions and qualifications for making entries and for intimating acceptance or refusal of entries.
 - (6) A statement if applicable on details of how entries can be made via the internet.
 - (7) An announcement that the Bloodhound Trial is held under Kennel Club Regulations for Bloodhound Trials with such exceptions as the committee of the society may decide.
